KENOSHA COUNTY SELECTS RILEY TO LEAD PUBLIC SAFETY BUILDING RENOVATION

KENOSHA, Wis. – (March 30, 2009) – Riley Construction Company proves to be strongest among four construction managers and was awarded the construction management of the \$15 million Kenosha County Public Safety Building addition and renovation project.

The project, located in the heart of downtown Kenosha, involves a three-story, 44,300 square foot addition to the existing facility. The addition will house an expanded Joint Services 911 dispatch center, the County Division of Information Systems and additional Kenosha Police Department space. The basement garage is also planned to be expanded to house additional vehicles. The renovation is anticipated to include modernizing the existing interior administrative space for the Kenosha Police Department and Kenosha County Sheriff's Department.

The project will break ground this summer and is expected to be completed at the end of 2010. Milwaukee-based Zimmerman Architectural Studios is serving as the designer.

Riley Construction brings an extensive portfolio of law enforcement and civic project experience to the Kenosha County Public Safety Building project. The company has led similar law enforcement construction projects in Franklin and Twin Lakes, Wis.; and Glenview, Lake Zurich, Waukegan, Antioch and Zion, Ill. Riley Construction also brings experience in managing projects in Kenosha's downtown, including the Kenosha Public Museum and an addition to the Kenosha News facility.

One of the largest construction management and general construction firms in southeastern Wisconsin and northern Illinois with more than \$154 million in volume last year, Riley Construction is headquartered in Kenosha, Wis., with permanent offices located in Milwaukee and Lake Bluff, Ill. The company provides construction management, preconstruction, design/build and general contracting services across a wide range of markets, including health care, municipal, commercial, industrial, public/recreation and education. Projects include new, expansion, renovation and restoration projects for a variety of building types and uses.
