## LEED ACCREDITED CONSTRUCTION PROFESSIONAL FIRST IN KENOSHA

*LEED Accreditation Displays Riley Construction's Continued Commitment to Sustainable Construction*

**KENOSHA, Wis. – (June 25, 2008)** – Riley Construction Company's John Delavan has earned the Leadership in Energy and Environmental Design (LEED) Accredited Professional certification – the first in Kenosha. This certification allows Delavan and Riley Construction to assist clients in obtaining LEED certification by providing professional counsel on construction techniques that reduce environmental impacts and incorporate sustainable design elements.

Riley Construction's work on the recently-opened JohnsonDiversey distribution center in Sturtevant, Wis., was recognized by LEED Gold certification. The distribution center stands as the largest LEED Gold-certified distribution center the United States at more than 550,000 square feet, or 11 football fields of floor space.

Riley currently has three LEED designed distribution center projects under construction, including two in Oak Creek, Wis., and one in Lake Forest, Ill.

The LEED Green Building Rating System™ encourages and accelerates global adoption of sustainable green building and development practices through the creation and implementation of universally understood and accepted tools and performance criteria. Riley Construction is a member of the U.S. Green Building Council and is committed to the environment by incorporating sustainable concepts and green construction alternatives on many of its projects.

One of the largest contractors in southeastern Wisconsin, Riley Construction Company, Inc. is headquartered in Kenosha, Wis., with permanent offices located in Milwaukee and Lake Bluff, Ill. Riley Construction provides construction management, design/build and general contracting services across a wide range of markets, including healthcare, commercial, industrial, public/recreation and education.
