## NEW MEDICAL OFFICE BUILDING COMING TO ST. CATHERINE'S MEDICAL CENTER CAMPUS

**KENOSHA, Wis. – (September 13, 2010)** – Amidst the successful progress of the vertical expansion to St. Catherine's Medical Center, United Hospital System has selected Riley Construction to provide full construction management services on a new \$7 million medical office building at its Pleasant Prairie campus.

The Village of Pleasant Prairie Plan Commission recently voted unanimously to approve site and operational plans for the 32,000-square-foot, two-story building located just southwest of St. Catherine's Medical Center.

It is planned for national pain care center Advanced Pain Management to lease 10,000 square feet. The building would also house United Hospital System outpatient rehabilitation services and 16,000 square feet of physician office space.

Construction will start this month and is expected to be completed June 2011. The design is being led by Epstein Uhen Architects of Milwaukee.

Riley Construction is currently leading the massive 322,000-square-foot, three-story addition to St. Catherine's Medical Center. The \$65 million project adds three new stories on top of the existing hospital, making this one of the largest and most technically challenging health care construction projects on-going in Wisconsin. Riley Construction is serving as the construction manager on the project, providing preconstruction, construction management and trades performance services.

### About United Hospital System

United Hospital System is a comprehensive regional healthcare system that has served southeastern Wisconsin and northern Illinois communities for more than 100 years. United Hospital System provides services primarily through the Kenosha Medical Center Campus and the St. Catherine's Medical Center Campus and several other clinic locations.

### About Riley Construction

One of the largest construction management and general construction firms in southeastern Wisconsin, averaging more than \$107 million in annual volume, Riley Construction is headquartered in Kenosha, Wis., with permanent offices located in Milwaukee and Lake Bluff, Ill. As one of the leading construction services firms in the region, Riley Construction was recently ranked among the top Midwest companies by *Midwest Construction* magazine, including no. 18 in Healthcare/Hospital construction in 2010. Riley Construction provides construction management, preconstruction, design/build and general contracting services across a wide range of markets, including health care, municipal, commercial, industrial, public/recreation and education. Projects include new, expansion, renovation and restoration projects for a variety of building types and uses.
